

Figure 1: Bar chart showing L43E: SCC2-51 expression levels (Ct) across various tissues and cell lines. The y-axis represents Ct values from 0 to 4000. The x-axis lists various tissues and cell lines. The chart shows that L43E: SCC2-51 is highly expressed in Adrenal Gland (356A) and Pituitary Gland (638A), and is not expressed in most other tissues and cell lines.
